REASONS FOR ALLOWANCE

Allowable Subject Matter

1. Claims 18-34 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

The Examiner agrees with the applicants arguments that the prior art of record discloses a portable communication device with interface that stores a first application and uses a second application on a second device, and where the operating system is programmed to show a security indicator when the interaction between the device and second application is a secure operation, however, **the prior art fails to disclose that the operating system displays a security indicator on a sub-portion of the display only accessible by the operating system.**

Therefore, claims 18-34 are allowed.

Conclusion
